## GLOBAL TRADE COMPLIANCE ANALYST

Detail-oriented compliance and data professional with a strong analytical background and growing hands-on experience in global trade compliance. Currently supporting export compliance analysis in a consulting environment, with strengths in data analysis, process documentation, screening support, and Excel-based compliance workflows. Known for quickly learning regulatory frameworks, translating complex requirements into practical controls, and supporting senior compliance professionals with reliable, well-documented analysis. Fluent in English and Russian, both written and spoken.

---

## CORE COMPETENCIES

- Export Compliance Analysis (EAR exposure; U.S. export regulations context)
- Denied & Restricted Party Screening: e2open (screening review & results tracking)
- End-User / End-Use Research & Due Diligence
- Compliance Data Analysis & Reporting
- Excel (Advanced): formulas, pivot tables, lookups
- Google Workspace (Sheets, Docs, Slides)
- SQL & Data Querying (Foundational)
- Process Documentation & SOP Support
- Risk Analysis & Issue Tracking

## PROFESSIONAL EXPERIENCE

### Global Trade Advisory LLC — Remote / MA

Trade Compliance Analyst (Part-Time) | 2024 – Present

- Support senior trade compliance consultants with day-to-day export compliance analysis across multiple client engagements.
- Perform denied and restricted party screening reviews, assist with escalation documentation, and help analyze potential false positives.
- Conduct end-user and end-use research using open-source intelligence and internal client data to support EAR and OFAC-related assessments.

- Prepare and maintain Excel-based tracking tools for compliance reviews, screening logs, and audit-ready documentation, utilizing formulas and pivot tables for accuracy and traceability.
- Perform data cleanup, organization, and analysis to improve visibility into compliance workflows and client risk areas.
- Draft and update internal compliance documentation, summaries, and client-facing analysis materials.
- Collaborate remotely using Google Workspace, maintaining version control and clear documentation standards.

## GloMove, Inc. — Westborough, MA

Marketing & Data Analyst (Project-Based) | 2023 – Present

- Translate business and operational objectives into structured analytical approaches and reporting outputs.
- Collect, clean, and analyze diverse datasets using Excel, SQL, and visualization tools.
- Develop clear, executive-ready reports and presentations to support management and investor decision-making.
- Apply analytical thinking and pattern recognition skills directly transferable to compliance risk analysis.
